

Picture Day Questions

Good Morning,

As Picture Days approach I know students have questions about the process. Information has been posted on our school social media sites but I put together some specifics so that you can help students understand. You can also direct them to me at luciamorales@dadeschools.net and I will gladly answer their questions.

-Do students have to wear a uniform?

No, both physical and MSO students can dress down. Physical students can dress down for free on their scheduled day (language arts class block). Must follow school dress code.

MSO students: picture day is on a teacher planning day and they can dress down as well.

-Who needs to make an appointment?

ONLY MSO students need to make an appointment; Physical students will go with their language arts class.

Appointments will limit the number of students who are present in the auditorium at any given time.

-How do MSO students make an appointment?

Please refer to the school's social media posts for specific instructions. The link and steps are posted for MSO students.

-Do students have to participate in Picture Day?

It is important that students participate because we use their portraits for a Picture ID (physical students), we use their portraits for the yearbook, and for the grade book.

*MSO students who have concerns about coming to school to be photographed can reach out to me directly for assistance.

-What happens if students cannot make it to their scheduled day?

Please direct parents/students to me.

-Will masks be removed for the Photo?

Classes will go in one at a time, students will be socially distanced, and there will be two photographers to expedite the process. Masks will be removed only for the portrait, which takes a minute.

-Picture Day schedule will be sent to ELA Dept. Head by Monday for review.
